

„Continuous monitoring of machinery:  
- is extremely costly  
- is very complex  
- requires years of experience“

**WRONG**

## FAG Easy Check

The new FAG Easy Check is certain to be a big hit, offering you a quality solution at an affordable price.

FAG Easy Check continuously monitors all machines with stable operating conditions such as:

- ventilators
- fans
- pumps
- electric motors

## If you want...

- inexpensive monitoring products which are easy to use
- to be able to evaluate the condition of your machine at a glance
- to know in advance when your machinery is going to fail because of a damaged component
- constant and reliable monitoring of your machinery at low prices

## ... then we can highly recommend our product because:

- FAG Easy Check is available at a great price
- FAG Easy Check permanently monitors vibration and temperature
- FAG Easy Check is easy to install, easy to operate and easy to read
- FAG Easy Check gives advance warning of bearing failure
- FAG Easy Check can be used in conjunction with an automatic lubricator, so your machine is not only monitored but properly lubricated as well

## The advantages:

- considerable cost reduction
- increased reliability
- more machine availability
- fewer failures and unscheduled machine downtimes
- longer bearing life
